

CAPLIN

Crédit Agricole Corporate and Investment Bank offers live Fixed Income trading with Caplin Trader and Caplin Xaqua

Another major financial institution goes live with Caplin's single-dealer platform

LONDON and PARIS – 25 May 2010 – Caplin Systems Ltd, provider of single-dealer platforms for the capital markets, today announced that Crédit Agricole Corporate & Investment Bank (Crédit Agricole CIB) is now live with its new online single-dealer portal for Fixed Income and Structured Notes trading, developed using Caplin Xaqua and Caplin Trader.

Nick Green Head of Fixed Income Markets e-business at Crédit Agricole CIB, said, "Our objective was to provide our clients with the ability to trade a range of rates-based instruments via the Web. Caplin offered us exactly the functionality we were looking for. Our decision to use the Caplin Trader client framework running on the Caplin Xaqua platform has delivered a compelling user experience to which we have had a very positive user response."

He continued, "The platform provides trading capabilities to internal staff and group companies. We plan to roll this out to other external clients and further extend the range of products."

Caplin Systems worked closely with a team from Crédit Agricole CIB to implement the new system, with Caplin staff working on-site in London and Paris for the final phase of the project.

Currently Crédit Agricole CIB is using the platform to provide EMTN and vanilla IRS execution, and indicative liquid bond pricing. The bank plans to add liquid bond execution and to extend the range of tradable swaps.

Paul Caplin, CEO of Caplin Systems, said: "Crédit Agricole CIB has used Caplin's technology to build a state-of-the-art online portal that can easily be extended and enhanced as the

needs of the business evolve. We are delighted to be able to announce another bank live on a Caplin Xaqua-based single-dealer platform”.

About Crédit Agricole CIB

Crédit Agricole CIB's activities are organised around four major divisions: Coverage and Investment Banking, Equity Brokerage and Derivatives, Structured finance and Fixed Income Markets.

The Fixed Income Markets division handles all the sales and trading activities of standard and structured market products for corporates, financial institutions and large issuers.

Crédit Agricole CIB has a network of 31 trading rooms, including five liquidity centers in London, Paris, New York, Hong Kong and Tokyo, providing its clients with a strong positioning in Europe, Asia and the Middle East. It has a targeted presence in the United States and additional entry points in other local markets.

In order to best satisfy the specific requirements of its clients, the Fixed Income Markets division is organised into five product lines (foreign exchange, interest rate derivatives, debt and credit markets, commodities and treasury) and one commercial division. These trading and sales entities are supported by dedicated research units.

In each of these activities, Crédit Agricole CIB ranks among the world's top players.
